

01

How we can start cooperation?

1. Prepare all details like:
 - description of task
 - budget
 - deadline
2. Send us email with details:
contact@devcrm.it
3. We can schedule a skype call if you want to discuss details.

After that, we will register your inquiry and prepare a quote within a few days.

02

Pricing

Settlement methods	Payment schedules	How you can pay?
Flat rate – a fixed amount that you will pay regardless of how long the job takes.	100% before - payment in advance	Paypal
Hourly rate - the final amount depends on how long it takes to complete the order.	50% before and 50% after job	Bank transfer

03

What's next after we agree on terms of cooperation?

We'll have to register you as a client in our CRM.

You can send us the required information by email.

You can fill out the form on our website.

All information will be processed in accordance with our Privacy Policy.

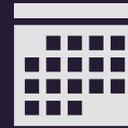

04

What we can do for you and your business?

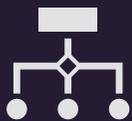

Installation and upgrade

We can install, configure and upgrade your EspoCRM. Updates can be performed once or periodically.

Subscriptions

We can take care of your CRM on a subscription basis so that you don't have to worry about anything.

Custom modifications

We can prepare various modifications to customize EspoCRM to your needs.

Custom integrations

We can integrate your EspoCRM with external services, for example Amazon.

05

Want to know more about us?

We are a small team of developers. We are from Poland. We have been programming for over 10 years. We have experience with WordPress, WooCommerce, Laravel and Symfony. We have also taken various orders related to other PHP based applications. We also have experience in Linux servers.

In 2017, we implemented EspoCRM in our company. Since then, we've managed to release free extensions that are available on [our Github repo](#), have collaborated both domestically and internationally, and have gained relevant experience.

During these years we have also remained active on the [EspoCRM forum](#), where among other things we have helped other users.
